Assessment Screen Overview
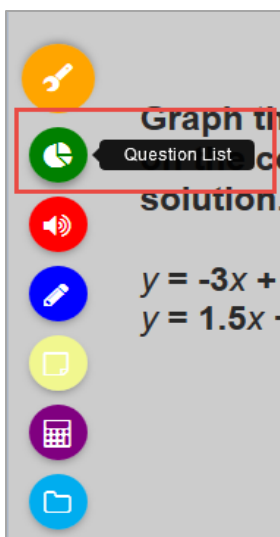

Assessment Tools

🔧	**Tool Access** - click on to view available assessment tools
🟢	**Question List** - click on the question icon to go to a new question, or view what questions are completed.
🔴	**Text-to-Speech** - click on the headphone icon to reveal play|pause|stop buttons for reading the assessment questions aloud. You can also click on one or more words and the play button to read the selected words.
🔵	**Highlighter** - use this tool to highlight text in your assessment question or reading passages with four different colors.
🟡	**Notepad** - take notes for each question to capture important details or to work through a multi-step problem.
🟣	**Calculator** - this popup calculator tool is only available for certain tests. If you see this icon, click to launch an on-screen calculator.
🔵	**Reference Sheets** - use this to find helpful math information such as conversion charts and formulas for grade level 4 and up.
⚙️ ❓	**Help Tool** - click on the question mark to show information on assessment interface.
⚙️ 🔍🔍	**Zoom Tool** - click on the magnifying glass to enlarge the assessment text and images by 4 times the original size.
⚙️ ◐	**Color Contrast** - use this tool to change the color contrast and improve the visibility of text for students who need this accommodation.
⚙️ ⊟	**Masking Tool** - available for students that need help focusing on text, masking will highlight the text and block out the rest of the screen.

Question Tools

|	
🚩	**Flag for Review** - mark a question for review so that you remember to complete the question before finishing your test. The system will warn you if you have any questions flagged question upon submitting.
◗	**Protractor** - the protractor tool will be enabled for questions that require it. Click to view/hide the protractor.
📏	**Ruler** - the ruler tool will be enabled for questions that require it. Click to view/hide the ruler.
✛	**Add Point** - this tool will be displayed on graphing questions that require points to be plotted. Turn on and click on the graph.
↘	**Add Line** - this tool will be displayed on graphing questions that require lines to be drawn. Turn on and click on the graph to draw a line.
↘	**Add Segment** - this tool will be displayed on graphing questions that require line segments to be drawn. Turn on and click on the graph to draw a segment.
↖	**Add Ray** - this tool will be displayed on graphing questions that require rays to be drawn. Turn on and click on the graph to draw a ray.
✖	**Delete** - use the delete tool to remove points and lines added to a graph or images on a drag and drop question.
▷	**Select** - use the select tool to move items on a graphing question or images on a drag and drop question.
🗑	**Clear All** - this tool will remove all items added to a graphing question or dragged on a drag and drop question.

Question List
